PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 3+ years of experience building and shipping web and mobile applications. I am comfortable with

PROFESSIONAL EXPERIENCE

Mountain Dev — Boone, NC
Technical Lead — *November 2025 - Present*

- Built web application for visualizing aerial emissions inspection data using Mapbox, with data export functionality supporting KMZ, Excel, and PDF formats for client reporting.
- Collaborated with leadership on system design; implemented full stack using FastAPI, Next.js, and PostgreSQL.
- Led team of 3 developers across multiple time zones, coordinating code reviews, sprint planning, and delivery.

ECR Software Corporation — Boone, NC
Full-Stack Software Engineer — *January 2023 - October 2025*

- Promoted twice in under three years, advancing from Junior to Expert based on technical ownership and consistent delivery.
- Led end-to-end mobile app lifecycle as sole engineer for iOS and Android, reducing crash rates by 25% and ANR rates by 50% while serving 1,500+ regular users.
- Eliminated 90% of critical vulnerabilities across 5+ applications by implementing NexusIQ and enforcing secure CI/CD pipelines.
- Reduced technical debt by 60% (measured via SonarQube); increased unit test coverage from 0% to 40% on legacy Java codebase (300k+ LoC).
- Implemented Maven build optimizations and dependency management improvements, reducing build times by 33% from 2 hours down to 80 minutes.
- Represented engineering at annual customer conferences, presenting roadmaps and translating client feedback into development priorities.

EDUCATION

Appalachian State University — Boone, NC
Bachelor of Science in Computer Science — *December 2022*
